

SOFTWARE-ENABLED WORKPLACE VIOLENCE PREVENTION AND INTERVENTION

by CPPS + RockDove Solutions

Transform Your Program

| We Know What You're Up Against

WVPI often feels fragmented and reactive. You're facing:

- ! Siloed policies, training, and documentation
- ! Gaps in compliance and defensibility
- ! No centralized system for managing threats or crises
- ! Too few resources and too much manual work

| What You Gain

- + Greater readiness and reduced liability
- + Clarity across teams and leadership
- + 24/7 expert support from CPPS
- + Stronger employee safety and peace of mind
- + A unified system that finally works the way you do

| How We Help

Software-Enabled WVPI combines CPPS's renowned subject matter expertise with RockDove's In Case of Crisis platform—giving you everything in one secure, scalable solution:

- ✓ Develop & manage a compliant WVPI program in one place
- ✓ Manage and Store policies, training, reports & inspections securely
- ✓ Coordinate threat & crisis response with immediate CPPS expert access
- ✓ Automate notifications, follow-ups, and team briefings
- ✓ Deliver & track training across your organization
- ✓ Control access with SOC2-certified, role-based permissions

TAKE COMMAND OF VIOLENCE PREVENTION

Software-Enabled WVPI by CPPS + RockDove

This all-in-one solution combines CPPS's national expertise with RockDove's secure platform to help you build and manage your WVPI program with confidence.

Program Development & Management

Build and manage your WVPI program in one place.

- Operationalize policies and procedures with ease and CPPS support
- Manage employee, leadership, and threat management team training organization-wide
- Stay compliant through effortless updates
- Store site inspections and generate ROI-driven analytics

How it works

CPPS partners with your team to build the program in the platform and helps manage it over time.

Incident & Report Management

Streamline how reports are captured and resolved.

- Centralize incoming reports
- Automate actions and follow-ups
- Securely store data and notify relevant teams
- Equip managers with tools for fast, appropriate response

How it works

Your team uses CPPS-developed procedures to handle all reports with consistency and care.

Threat Management

Standardize how your team responds to behavioral threats.

- Securely store threat case data
- Enable consistent case workflows
- Notify stakeholders instantly
- Brief executive leadership with built-in tools
- Access 24/7 expert guidance from CPPS

How it works

Your team is trained by CPPS and uses the software to manage BTAM cases with expert backup at every step.

Crisis Management

Be ready to lead through any crisis.

- Monitor threats in real time
- Align teams on response and recovery
- Communicate quickly and clearly
- Debrief effectively with after-action reports

How it works

CPPS builds your plan, and the software powers your team's response when an Active Assailant crisis occurs.

You Don't Have to Do This Alone

Let CPPS help you build a program that protects people, meets regulatory demands, and gives your team the tools to respond consistently and defensibly.
